Re: Sumter County Right of Way Litigation Status

Dear Gary:

The following is the September 21, 2009, status report regarding litigation activities for each of the right-of-way acquisition projects being handled by our firm for Sumter County since our August 2009 status letter:

- **County Road 139/County Road 462 (Parcels 101, 101A, 102, 103, 104, 105, 108, 109, 109A, 110, 112, 113, 114, 120, 121, 122, 123, 124, 125, 126, 127, 128, 131, 132 & 133)** On May 27, 2009, the County filed an eminent domain action (Case No. 2009-CA-000467) to acquire Parcels 101, 101A, 102, 103, 104, 105, 108, 109, 109A, 110, 112, 113, 120, 121, 122, 123, 127, 128, 131, 132 and 133 which are needed for improvements to County Roads 139 and 462. On August 10, 2009, an Order of Taking hearing to acquire the parcels prior to the entry of a final judgment was held. On August 21, 2009, good faith deposits were made and title to the parcels was acquired by the County. *Since our last status letter, we have reached settlement agreements with the property owners for Parcels 120, 121 and 122. The proposed Stipulated Final Judgments will go before the BOCC for approval on September 22, 2009. Upon approval, we will submit the Stipulated Final Judgments to Judge Hallman for entry. Additionally, mediation conferences have been scheduled for December 15, 2009 for Parcels 110, 113, 123 and 133. The only remaining parcels for which the County has not acquired title to date are Parcels 125 and 126, owned by Russell D. Vick and Royce and Alice Vick (the "Vicks"), respectively. The Vicks had negotiated a pre-suit settlement with County, but refused to close on the parcels at the last minute. Accordingly, we prepared and the BOCC approved resolutions to acquire Parcels 125 and 126 through eminent domain on August 11, 2009 and suit was filed on August 14, 2009*

(Case No. 2009-CA-000731) on behalf of Sumter County to acquire Parcels 125 and 126. As of the date of this letter, the Vicks have signed a Stipulation for Order of Taking and an Order of Taking hearing is scheduled for October 21, 2009. The County should acquire title to Parcels 125 and 126 within 20 days after the Order of Taking hearing.

- **County Road 462:** See County Road 139/County Road 462.
- **County Road 468 (4 Lane)– Parcels 100, 101A, 101B, 102A, 102B, 102C, and 103:** Parcels 100, 101A and 101B have settled and are pending closing by Derrill L. McAteer with The Hogan Law Firm of Brooksville, Florida. The County has settled the fee (land) interest in Parcel 103, owned by Grace Tabernacle of Worship, Inc. (“Grace Tabernacle”), in the amount of \$77,712.50, excluding attorneys’ fees and costs and expert fees and costs. The attorneys’ fees are in the amount of \$2,479.12 and the expert fees are in the amount of \$6,000.00. The fee interest in Parcel 103 is pending closing by Derrill McAteer with the Hogan Law Firm. There is still an unresolved easement interest by Progress Energy which is pending for Parcel 103. Other remaining parcels on this project are Parcels 102A, 102B and 102C, owned by Bobby E. Hunt and Carolyn Hunt (the “Hunts”). The last offer made by the County to the Hunts was in the amount of \$495,000.00, including a billboard owned by Tom Gunter d/b/a Gunter Advertising (“Gunter”). The County’s offer was rejected on July 2, 2008 and the Hunts made a counteroffer in the amount of \$800,000.00, which was rejected by the County. The Hunt’s counteroffer did not include the billboard owned by Tom Gunter d/b/a Gunter Advertising (“Gunter”) located on Parcel 102C. We are discussing settlement with Gunter and are planning to schedule a mediation conference with Hunt regarding the fee simple interest. *Since our last status letter, the County and Progress Energy have reached agreement on the area required to relocate Progress Energy’s transmission lines and Progress Energy has told us they are seeking approximately \$218,000.00 in compensation to relocate their lines. The County and Progress Energy are still in negotiations regarding the type of agreement that will be necessary for relocation of the lines.*
- **County Road 468 @ Turnpike (13 Outdoor Advertising Signs):** These are parcels upon which there are 13 billboards. We are working to obtain leases for three Lamar billboards and are working with Farmer Barley and the Villages attorneys to obtain additional information regarding what interests need to be acquired through eminent domain proceedings and what interests are being dedicated to the County. Once this information is received, we will attempt to resolve these parcels through settlement and will file suit if we are unable to settle these parcel pre-suit. *No change since our last status letter.*
- **County Road 466A (Phase II Outdoor Advertising Signs)-Parcels 100 and 101:** These parcels have billboards owned by Oxford Outdoor Advertising located on them and pre-suit negotiations with the billboard owner’s attorney failed. The County rejected the Owner’s appraisal of \$613,800.00 and resubmitted an offer of settlement of \$33,100.00 for Parcel 100 and \$33,100.00 for Parcel 101. We were able to obtain dedications of the underlying fee needed for the road improvements from Joseph Dunagan and The Villages. Therefore, the

only remaining issues are the leasehold and physical billboard structures owned by Oxford Outdoor Advertising. On August 10, 2009, the Court entered a Stipulated Order of Taking as to Parcels 100 and 101 and good faith deposits were made on August 21, 2009. We have also received a Notice to Set Parcels for Trial filed by Oxford and are currently awaiting an Order from the Court setting a pre-trial conference. *No change since our last status letter.*

- **County Road 616 Improvement Project—Sumter County, Florida v. Arthur M. Hayes, et al., Case No. 2007-CA-001299, Parcels 100, 101, 104, 105, 700, 701, 705, 800 and 804.** Parcels 101 and 701 owned by Harry Goodstein, Sarah Goodstein and Minnie Goodstein (the “Goodsteins”) are the last active parcels on this project. The Goodsteins are deceased and an Administrator/Attorney Ad Litem has been appointed by the Court to resolve these interests. Probate actions were filed and finalized with the Court who adjudicated ownership of the property as follows: 50% to Millicent Goodstein and 50% to the Goodstein Memorial Trust. Unfortunately, since the completion of said probate actions, Millicent Goodstein has passed away and her estate is being probated in New Hampshire. Once a Personal Representative has been appointed, they will file an ancillary administration of Millicent’s estate in Sumter County, Florida. At that time, we will move to have the parties substituted and enter into a Stipulated Final Judgment with all the heirs and the Trustee of the Goodstein Memorial Trust. *No change since our last status letter.*
- **U.S. Highway 301 Improvement Project--Sumter County, Florida v. Shirmik Enterprises Ltd., Inc., et al., Case No. 2005-CA-001368, Parcel Nos. 109, 113A, 113B, 115 and 802.** Parcel 115, owned by Betty Jo Leatherman and allegedly leased by her son, Donald Leatherman (the “Leathermans”), is the last active parcel on this project. Improvements include a packing house and loading dock, which appear to have been abandoned for several years. On January 24, 2008 an offer of judgment for \$100,000 was made to and rejected by the Leathermans. Since our last status letter, the case was mediated on September 26, 2008 and a conditional settlement was reached. Pursuant to the mediation agreement, the County will pay \$245,000.00 less the amount of \$72,650.00 previously deposited as a good faith estimate of value into the Registry of the Court, and subject to approval by the Board of County Commissioners. The settlement is conditioned upon the Leathermans submitting a development plan by October 29, 2008 and obtaining approval of the site plan by the County within 90 days thereafter. Under the mediation agreement, the County reserved the right to approve or deny the development approval. The mediation agreement is exclusive of attorneys’ fees and costs and expert fees and costs. In the interim, the trial scheduled for October 27 through 31, 2008 was cancelled. A Stipulated Final Judgment was approved by the Board of County Commissioners on May 26, 2009 and entered by the Court on May 30, 2009. The County deposited the amounts required pursuant to the Final Judgment on June 15, 2009. On June 17, 2009, we received a Motion to Withdraw Funds from the Leathermans. *Since our last status letter, we have reached an agreement with the Leathermans regarding their reasonable experts’ fees and costs and attorneys’ costs. A Stipulated Final Judgment in the amount of \$47,551.60 is pending before the BOCC for approval at its September 22, 2009 meeting.*

Brief Justification for Budget Adjustment

Due to the County re-valuing insurance coverage based on appraised value for buildings and fleet - our costs for insurance coverage was less than anticipated when budgetted. Due to a very active "fire season" emergency calls increased creating more wear & tear on fire apparatus (vehicles) resulting in increased Vehicle Repair & Maintenance costs. The additional \$7,500 will allow us to clear August and September invoices to close fiscal year.

The "Operating Supplies" line item includes many items including uniforms. The increase in fire responses noted above along with an increase in our number of Reserve Firefighters has created a need for uniforms beyond what was forecast in our budget. The transfer of \$4,000 will cover these uniform needs through the end of the fiscal year.

Of the eight notices sent, one was returned in favor and none were returned in objection. There were no objections from the audience.

Mr. Cornelius explained the Building Department informed him the applicant is nearing completion of construction. Therefore; Mr. Cornelius recommended the request be amended to allow the RV for six months while construction of the residence is being completed. Mr. Cornelius also stated the Sumter County Health Department approved the applicant to use a portable holding tank for wastewater disposal.

Mr. Topping made a motion to approve the Temporary Use Permit for six months for a RV while the residence is under construction and required the applicant to connect to a wastewater system approved by Environmental Health. Mr. Sheppard seconded the motion, and the motion carried.

Mr. Berry inquired as to the type of business the Rackleys have, which Mr. Rackley replied, "airboat sales and manufacturing." Mr. Berry requested the Rackleys seek a better means of security for the future to eliminate the need for the RV. Mr. Cole asked who stays in the RV, which Mr. Rackley stated his wife and himself.

Mr. Topping made a motion to approve the Temporary Use Permit for two years for a RV for security, and required the applicant to connect to a wastewater system approved by Environmental Health. Mr. Cole seconded the motion, and the motion carried.

S2009-0010

The Heart of Florida Girl Scout Council – Request a Special Use Permit to allow excavation of peat from an 84 acre pond for pond restoration

Jeff Schaffer Weaver Boos Consultants, representative for the applicant, Michael Lange were present and requested a Special Use Permit to allow excavation of peat from an 84 acre pond for pond restoration. There were 82 notices sent. Of the 82 notices sent, four were returned in objection and nine were returned in favor.

Mr. Cole questioned whether the applicants were agreeable to the conditions in the staff report. Mr. Schaffer stated the conditions were acceptable.

Mr. Topping asked whether Black Gold stockpiles outside of the tree line, which would make it visible to adjoining property owners. Mr. Schaffer stated very little stockpiling will be done and will be contained within the tree canopy. Mr. Story requested a description of the excavation process. Mr. Schaffer stated the pond will be de-watered in sections close to the peat level, and then peat excavated. When de-watering, the water is relocated within the pond. Mr. Schaffer stated there is 10-15 years of mineable peat; however, their mining plan is for five years of mining. Michael Lange stated the excavation is done with an excavator and a tractor with a pan.

Mr. Cole questioned what the property would look like after completion of the project. Mr. Schaffer replied the project area would be restored to a wetlands system within 18 inches to four feet deep in water. Exotic wetlands will be removed and replaced with native vegetation. The site will be monitored by the Florida Department of Environmental Protection (FDEP) for three years after it is stabilized. Mr. Cornelius stated the reclamation must be consistent with the current and future use of the site as part of the Girl Scout camp.

Mr. Topping questioned what would happen if the project was not completed. Mr. Schaffer stated FDEP requires the project to be bonded. Black Gold Composting Company has an agreement with the Heart of Florida Girl Scout Council for this project.

Barbara Hall, audience member, explained her concerns regarding the effects the excavation could have on ground water quality, existing springs within the pond, roads (truck traffic), and air (odor).

Mr. Schaffer stated all of the peat is not removed from the site in order to protect the re-growth of wetlands. There are staff gauges currently onsite to monitor the water table for The Villages. There will also be six piezometers (monitoring well used to measure groundwater levels) placed around the mining area. The piezometers will be monitored monthly by FDEP and reports sent to the County annually.

Mr. Story questioned how they plan to work around the springs without damaging or altering them. Mr. Schaffer stated there will be minimal excavation around the springs. The springs are located on the north and south sides of the pond. The north side of the pond is to be left natural and isn't part of the project, the south side is difficult to get to and excavation will be minimal.

Mr. Cole questioned whether there would be any sulfur odors or heavy metals released from the excavation. Mr. Lange stated there are no sulfur odors or heavy metals released because peat is decayed plant material.

Mr. Cornelius explained that the proposed truck traffic is limited to haul roads identified on the plan for application. In addition, staff included conditions within the recommendation for approval that require the applicant to correct damage to county roads from their operation.

Mr. Topping made a motion to recommend approval of the Special Use Permit for peat excavation including staff's conditions to the Board of County Commissioners. Mr. Cole seconded the motion, and the motion carried.

Other Business

Mr. Story requested a correction to the August 3, 2009, minutes as follows; Mr. Topping made the motion to adjourn not Mr. Cole.

Mr. Cole made a motion to amend the August 3, 2009, minutes. Mr. Topping seconded the motion, and the motion carried.

Mr. Cole made a motion to adjourn at 7:17 P.M. Mr. Topping seconded the motion, and the motion carried.

1. The County, its agents, and its authorized workmen or contractors shall be permitted, at the County's sole cost and expense, to install and maintain a fourteen (14) foot braced metal gate in the fence of Owner at the location set forth on Exhibit "B" attached hereto (the "Gate") for the purpose of access and traffic management in and through the Real Property if safe vehicular access to the residential neighborhood directly northeast of the Real Property is not available as a result of an "Emergency" (as defined in Section 3 below). The Gate shall be located on the Real Property's northern boundary, at the southwest corner of the northern adjacent property owned by Rice Cattle Company, and shall be moved to the southeast termination of the easement and/or right of way recorded in Official Records Book 316, Page 798 upon the County's obtainment of a declaratory judgment or judgment quieting title to the remainder unimproved portion of that easement/ right-of-way which is currently gated by a private property owner. The gate may be relocated by mutual agreement of the parties or as otherwise set forth in Section 2 below. Once installed Owner shall not relocate or otherwise prevent or impeded the County's use of the gate; provided however that Owner shall otherwise be allowed use of the gate. Owner shall be allowed to interlock its own lock with the County's lock on the gate provided that Owner shall not arrange the locks in such a manner that County agents cannot unlock the Gate.

2. Owner shall allow agents and authorized workmen or contractors of the County to maintain an approximately forty (40) foot grass or sand rut driving lane, suitable for citizen vehicular traffic in times of Emergency, such lane running directly adjacent to the northern and western boundaries of the Property, beginning at the gate mandated by and described in paragraph (1) and terminating at the Emergency "911" road described as "SE 118th LN" all as more particularly set forth on the sketch attached hereto as Exhibit "B" (the "Emergency Access Area"). In the event County desires to widen the Emergency Access Area from its current width, County shall be responsible at its sole expense for the costs associated with relocating the fencing (including rails and posts) on the side(s) of the Emergency Access Area; provided that in no event shall the width of the Emergency Access Area exceed forty (40) feet. In the event Owner requires a more particular description of the Emergency Access

Area, County shall promptly provide such description at its cost. For the purpose of this Right of Entry, the term "maintain" shall be understood to mean quarterly mowing and the repair of severe holes, washouts or obstructions that would endanger or impair civilian or county vehicular traffic in time of emergency. Owner shall allow the County to maintain the existing barbed wire fence along the boundaries of the Emergency Access Area if necessary. The county shall bear all costs related to the aforementioned Emergency Access Area maintenance activities. However, regular maintenance obligations pertaining to this existing Emergency Access Area fencing remain with the Owner. Owner shall be allowed to relocate the Emergency Access Area to the extent such relocation does not affect the level or quality of service of the Emergency Access Area in times of Emergency as described herein; in such an event Owner shall also be allowed to relocate the Gate provided access is still provided to CR 738H.

3. Citizen vehicular traffic shall only be allowed to utilize the Gate and Emergency Access Area described in this Right of Entry in times of Emergency, for the benefit of the residential neighborhood directly northeast of the Real Property. The Sumter County Sheriff, Sumter County Administrator or the Sumter County Director of Emergency Operations may declare an Emergency situation which requires the use of the right of entry by the public.

"Emergencies" will only be declared when circumstances, whether natural occurrences or temporary man made activities affiliated with transportation or public safety maintenance, result in the Emergency Access Area being the only point of ingress or egress for the residential areas serviced by the "738 Series" of Sumter County roads, including, but not limited to, CR 738H. With regard to obstructions of normal traffic service, all reasonable and diligent efforts shall be made to ensure that Emergency infrastructure repair and/or cleanup efforts are made in a timely manner to limit the Emergency use of the Right of Entry by citizen vehicular traffic.

4. Sumter County shall hold owner harmless regarding the use of the Emergency Access Area and shall indemnify Owner for damages related to injuries to third parties or the property of the Owner resulting from the use of the Emergency Access Area.

5. The Right of Entry shall be binding upon the parties hereto, and their successors and assigns, for a term of five (5) years following the date hereof. Upon the expiration of said five (5) year period, this Right of Entry shall be automatically renewed and extended for successive five (5) year periods. The number of five (5) year renewal periods hereunder shall be unlimited with this Right of Entry being automatically renewed and extended upon the expiration of each five (5) year renewal period for an additional five (5) year period. Notwithstanding the foregoing, either party may notify the other in writing of its election to terminate this Right of Entry at the expiration of the then-existing five (5) year term, provided that such notice is delivered prior to the expiration of said five (5) year term.

6. The parties agree that proper venue and jurisdiction for any litigation arising from the terms of this Right of Entry shall only be in a court of competent jurisdiction in Sumter County, Florida.

7. This Right of Entry shall be recorded in the Public Records of Sumter County and shall run with the land, binding all successors and assigns of Owner to the terms recited herein.

T.G. Lee Property Emergency Access Easement - Exhibit "B"

Emergency Access
Easement

0001958

Mr. Kuhl,

On Tuesday, September 15th, 2009 I took Mark Pike with SWFWMD to CR-650 to look at the concerns with Scrammy Hunt. Mr. Hunt wants the County to extend the culverts, and widen the easement so he can access his property. The reason for this, according to Mr. Hunt, is to sell this parcel.

After reviewing the area with Mark, he talked with Clay Black, also with SWFWMD. Mr. Black said that Mr. Hunt would have to have a permit with SWFWMD to extend the culverts, and widen the top of the berm.

We looked at other options for Mr. Hunt while we were there. Mr. Hunt has an easement agreement with Douglas Pope, who has given Mr. Hunt access through his property. If Mr. Hunt could enter into an agreement with his neighbor to the north he could clean the top of the berm, and not have to extend the culverts. This activity would not have to have a SWFWMD permit, according to Mark Pike.

To extend the culverts, and widen the top of the berm, so Mr. Hunt could access his property will cost in excess of \$ 10,000.00.
